

## Daily Intelligence.

BELLVIEW, MONDAY, OCT. 3.

## FOREST FIRES.

We have been checked by smoke for more than a week, and sometimes the air was so impregnated as to render existence a burden to people with weak lungs and eyes. The source of this annoyance is well understood. From the Ottawa section of Quebec to the shores of the St. Lawrence Bay there is an almost unbroken forest fire. The unprecedented drought of the past summer has prepared the country for such a conflagration, and the criminal carelessness of campers and settlers supplies the torch that spreads devastation over so wide an area of territory. Eyewitnesses of the terrible destruction thus being wrought by the flames, and the burning scenes of loss and suffering, and the ruin of the majestic marks of the conquering element. The loss of valuable timber must be a very heavy figure, and, aside from this there have been hundreds of struggling settlers reduced to the verge of beggary by the destruction of their dwellings and provisions.

But there is a very great danger to be feared, and that is the possibility of a general fire, and the criminal carelessness of campers and settlers supplies the torch that spreads devastation over so wide an area of territory. Eyewitnesses of the terrible destruction thus being wrought by the flames, and the burning scenes of loss and suffering, and the ruin of the majestic marks of the conquering element. The loss of valuable timber must be a very heavy figure, and, aside from this there have been hundreds of struggling settlers reduced to the verge of beggary by the destruction of their dwellings and provisions.

We need, and must have, more thorough inspection and oversight of the exposed territory. The Legislature of New York State has enacted regulations that efficiently protect the Adirondack and other forest ranges. Officers are appointed to look after the interests involved and see that the law is placed upon settlers and visitors having no previous experience in the suppression of a serious conflagration, and saved valuable tracts of timber from destruction.

It is a "phenomenon" in the sense that it is a rare and unusual occurrence, and the fact that it is a "phenomenon" is a fact that is a fact.

Judge O'Connor, in his reply to the Grand Jury presentation, spoke of the increase of insanity, and declared his inability to account for what he regarded as a "phenomenon." He is convinced that there is a general improvement in the condition of the insane, and that the people are more temperate, industrious and prosperous than formerly. But the lamentable fact remains that our asylums are full, and scores of demented persons are confined in county jails, and in the almshouses, and in the streets, and in the homes of the poor. The fact remains that our asylums are full, and scores of demented persons are confined in county jails, and in the almshouses, and in the streets, and in the homes of the poor.

It is a "phenomenon" in the sense that it is a rare and unusual occurrence, and the fact that it is a "phenomenon" is a fact that is a fact. It is a "phenomenon" in the sense that it is a rare and unusual occurrence, and the fact that it is a "phenomenon" is a fact that is a fact.

It is a "phenomenon" in the sense that it is a rare and unusual occurrence, and the fact that it is a "phenomenon" is a fact that is a fact. It is a "phenomenon" in the sense that it is a rare and unusual occurrence, and the fact that it is a "phenomenon" is a fact that is a fact.

disproportion that success and contentment. We live in a high pressure age, and the machinery of life is kept in rapid motion. Legions of men are engaged in the race, and are left to struggle in the struggle. There is a constant fight for supremacy in social rank, and it has become an acknowledged fact that the most potent lever of success is a flourishing financial position. There are no exceptions to this rule, and it is a fact that the most potent lever of success is a flourishing financial position.

These are the principal points that lead to a solution of the "phenomenon" that is a puzzle and a conundrum. It is a puzzle and a conundrum, and it is a puzzle and a conundrum. It is a puzzle and a conundrum, and it is a puzzle and a conundrum.

the Cardinal Archbishop's Palace, Quebec. QUEBEC, Sept. 30.—About 4 o'clock this afternoon fire broke out in the cupola and roof of the Cardinal Archbishop's Palace. When the firemen arrived the fire had gained headway in the interior of the third story and threatened to spread to the whole building. By strenuous efforts, however, the firemen confined the element to the portion of the building where it originated. The immense quantity of wood stored in the cupola was consumed, and the firemen succeeded in extinguishing the flames. The fire was caused by a candle that had been left burning in the cupola.

Look in the League Funds. THE GOVERNMENT'S CONTENTION WITH THE LEAGUE. LONDON, Sept. 30.—The Dublin Union asserts that since Jan. 1, 1887, the Irish National League has received subscriptions amounting to £23,000, of which sum it has doled out only £4,700 to the entire treasury of Ireland. The balance, the Union says, has not been accounted for.

## NOTICE!

## Tailoring Department

We have one of the largest and most complete stocks of Tuxedo and Dressing in the city. Suits made to order from \$10 up. A good guarantee.

## UNDERCLOTHING:

A large and well selected stock to choose from, and very cheap.

## CARPETS:

Our Carpet and house furnishing department is now complete, and one of the largest in the city. N.B.—Please call and examine our stock. No trouble to show goods.

## GLASGOW WAREHOUSE.

JAS. W. DUNNET.

Belleville, Sept. 30, 1887.

## Daily Intelligence.

BELLEVILLE, WEDNESDAY, OCT. 5.

## PROBABILITIES.

Toronto, Oct. 5.—Fresh northwest and north winds, generally fair cool weather, with a few local showers.

Get His Desires.

## TEMPERATURE.

As registered by Mr. Davis' Self-Registering Thermometer.

Maximum 53; minimum 48.  
Barometer 29.60.

## Mines' Companion.

A new publication, the *Mines' Companion*, issued by the people of the Minnesota school for the deaf at Fairbault, is about to be enlarged. It is at present an eight page twenty four column sheet, well filled with interesting reading. The paper is so progressive that a new Campbell cylinder press has been purchased.

## New Dress.

The St. Catharines News is to hand decked in a new dress telling of a complete new outfit and the purchase of a new dress. The News is an advocate of reform principles. While we cannot agree with it in politics, we can readily credit the number before us, with being bright, new and giving evidence of prosperity. Long may it continue.

## A Wealthy Citizen Goes.

Mr. A.L. Smith, one of the old and early settlers in this city, died yesterday, after a lingering illness brought on by paralysis. He was a large land owner on Taylor's hill and in a time served in the City Council. He was a Justice of the Peace and frequently acted in that capacity. He was widely known as a man of ability. It is stated that the bulk of his property is bequeathed to his nephew, Mr. Geo. Flower.

## Personal.

The travelling public will be pleased to know that Mr. F. O. Magnus, for many years the popular clerk of the St. Lawrence Hall, Port Hope, has become the proprietor of that comfortable hotel.

Mr. Milburn is, we are pleased to learn, much better, and hopes to resume his duties in the High School in a few days. Chief Justice Adam Wilson, of the Court of Queen's Bench, has been knighted.

## Avoid Baldness or Gray Hair.

Use Dr. Doremus' Great German Hair Magic. It keeps the scalp clean and free from dandruff, and promotes the growth of the hair. It prevents premature grayness and stops any falling out of the hair. On bald heads, where the hair has been lost, it will regenerate them and force a new growth of hair. Ask for Hair Magic. It is the only reliable. For sale by all druggists in Belleville and all parts of Canada.

It is stated that Judge Clark, of Cobourg, will resign his seat on the bench to accept the position of Solicitor to the Canadian Pacific Railway, formerly held by Senator Abbott.

Who baby was sick, we gave her Castoria. Who also was a Child, she cried for Castoria. Who also became Man, she clung to Castoria. Who also had Children, she gave them Castoria.

## "Leah, the Forsaken."

A fair house greeted the Miss Claire Scott dramatic company in the above play last night. Miss Scott was cast for "Leah" and sustained the role with wonderful realism and great power. As a gentle, loving maiden, ready to give up people, religion and everything to follow her lover, whosoever he might lead, her acting was grand and stirring. Her appearance, while as the despondent, forsaken Jewess, seeking revenge for her wrongs, was simply superb, and in the scene "where Leah makes a curse upon 'Rachel'" her acting was magnificent and displayed rare histrionic ability. The support was excellent throughout—Mr. Colburn's "Rachel" and Mr. Malcom's "Nathan" being especially worthy of mention.

## Marchioness Scientific Society.

At the annual meeting held for the election of officers for the ensuing year, the following gentlemen were chosen: President, Thos. Wills, Esq.; Vice-president, Mr. A. C. Greenleaf; Treasurer, Mr. S. Gardner; Secretary, Mr. E. W. Kilmer; Assistant Secretary, Mr. H. Greenleaf; Mr. A. C. Greenleaf was re-appointed Curator of the Museum at Albert College.

An interesting address was made by the President on "Curious Remedies for Diseases," used as late as 100 years ago in the Chinese, Japanese, English and European pharmacopoeia, and which seems to show that the more nasty the remedy used the greater was their supposed efficacy. Among those named may be mentioned: hares, toads, frogs, human fat, skin and bones, bones, horns and mummies, all of which were generally dried and used as powders. Other remedies more numerous still were in common use, but are not mentioned to our police, all showing that in the past, in relation to medicine on the part of the patients, ignorance of what he swallowed was, blinder than the doctor's. An extract from the *Rain Register* of Mr. Greenleaf, showing the amount of rainfall at College Hill during the past drought, between the first May and 25th September, when the drought was broken by the thunderstorm last Friday. The following is the abstract:

In May rain fell on 1 day only, to the depth of 60.144 inches.

In June rain fell on 4 days only, to the depth of 192.144 inches.

In July rain fell on 4 days only, to the depth of 192.144 inches.

In August rain fell on 4 days only, to the depth of 209.144 inches.

In Sept., to the 25th, rain fell on 1 day only, to the depth of 60.144 inches.

This gives a total of 48.144 inches for 5 months of summer, less 3 days. The average rainfall at the Toronto observatory for 42 years is as follows: May, 3.077 inches; June, 2.841 inches; July, 3.165 inches; Aug., 2.843 inches; Sept., 2.8 inches; total, 15.733 inches; a deficiency this year of nearly 10 inches during the growing season. On the day at the end of July only 5.144 inches fell, and on the day of the 25th only 60.144 inches.

## TUESDAY, OCT. 4, 1887.

I have been troubled with nasal catarrh for the last five years. Seeing Nason's Balm advertised in a paper of a bottle, and although I have only used one of it, I do not hesitate to recommend it as the best remedy for such catarrh. I have used it for several years, and it has given me relief. It is easy and pleasant to use, and it is a good remedy for all cases of nasal catarrh. It is a good remedy for all cases of nasal catarrh. It is a good remedy for all cases of nasal catarrh.

## MEETINGS.

Dr. Ekins had a valuable horse of 100 lbs. last night.

Success Purlins and Sullivan agents for sale by S. McCullough.

The Board of Trade will discuss Commercial Union on Friday night.

PHILIP Soles, on remand for drunk and disorderly conduct, was fined \$5.00.

Those who have tried, say that the very best American Coal Oil is to be got at Green.

The play for Mary Queen of Scots, which is to be presented at the Victoria House to night, is well filled.

East India Tonic Bitters is a good tonic and Blood Purifier and contains one of the best known remedies for kidney troubles.

John Gauthier, charged with keeping a billiard table in his premises without a license, was given a week to remove them.

REMEMBER the social tea-morrow (Thursday) evening in the Tabernacle. Refreshments, music and readings by the popular and talented electionists, Miss Nettie Fraine.

The King's hat dropped from the delivery wagon of Geo. Litch & Co. last night, and fell in a pair of brown shoes. The wagon was left on Bridge street until this morning.

CHAS. Brown, drunk and disorderly, was fined \$2. It was a costly error for him. He made the fall in jail, and the police officer Hayes, had \$3.50, and had to pay Dr. Gibson \$20.00 for repairs to his shoulder.

Miss M. Carey, Teacher of Drawing and Painting, Terms, etc., on application at Miss Martin's school, Lingham Hall, John St., from 3 to 4 every afternoon. Orders taken for painting on silk, satin, etc.

STUCK WITH LIGHTNING. Nearly despoiled the position of a heart or soft when when Putnam's Lightning Cure Extract is applied. It does its work so quickly and with such ease that it seems magical in action. Try it. Recollect the name—Putnam's Lightning Cure Extract. Sold by all druggists and dealers everywhere.

Children Cry for Pitcher's Castoria.

## W. C. A.

## Eighth Annual Report of the Secretary.

The Hospital and Home for the Friendless "Fosterlings."

The annual meeting of the Women's Christian Association was held at the Council chamber yesterday afternoon, the President, Mrs. McLean, in the chair. The Secretary's report on the work of the Association from Oct. 1886 to Oct. 1887, was submitted, the trustees for the ensuing year appointed and an adjournment made until Tuesday next.

The report read:

In presenting this our 8th annual report we gratefully recognize the continued success which has attended the operations of the Association. Every year since our organization our work has steadily increased, and at the same time requisite means for carrying it on have always been placed at our disposal. Such has especially been the case during the past year, as it was our first experience in meeting the necessary expenses.

## OUR HOSPITAL WORK.

We are thankful to be able to state, that it has been clearly shown that such an institution as ours can, with proper management on the part of the Association and a fair share of liberality from the citizens, be supported without being burdensome to the city. Although the expenditure during the past year has been nearly double that of any previous year, yet it will be seen from the report that the Association has been able to meet the increased demands of our growing work; that we all may earn the commendation of our Lord, "Well done, good and faithful servant; inasmuch as you have done it unto one of the least of these my brethren, you have done it unto me."

A FACT WORTH REMEMBERING. Mrs. J. E. Binnie, of Toronto, states that her little baby, when three months old, was as bad with summer complaint as under doctor's treatment he had ever been. Of four boxes of Dr. Fowler's Little Children's Cure, he is now well and healthy.

John Bright loves Ireland.

LONDON, Oct. 4.—John Bright has written a letter in which he says that he has never been more a friend of Ireland than now. When objecting to hand that unfortunate country over to the rule of revolutionary, rebellious conspirators, justice to Ireland requires not only that the Irish should be just, but that they should be obeyed. It is my sympathy with the Irish people which forces me to offer a strong opposition to Gladstone and Parnell. The latter is not changed. The former five years ago condemned and denounced him, but now he comes forward as his apologist and defender."

## THE VERMIN OF IRELAND.

WHAT FATHER O'LEARY THOUGHT THE NATIVE POLICE.

DUBLIN, Oct. 4.—Father O'Leary, of St. Louis, in delivering an oration on Patrick Sarsfield at Limerick yesterday, avowed that he was a Socialist and a rebel at heart, as was every Irishman. He denounced the police as the vermin of Ireland, and said they seemed to be Irishmen when they donned the government uniform.

THAT HACKING COUGH can be quickly cured by Shiloh's Cure. We guarantee it. For sale by Dr. Fennell.

The line fire in the Ottawa valley have been effectively extinguished by the heavy rains of the past two days.

John B. Finch, of Nebraska, the well known temperance advocate, died suddenly in Boston on Monday night.

Kingston's assessment for 1886 shows an increase of \$305,325 in value of property and of 400 in population compared with last year's assessment.

Sp. J. M. Marshall will retain control of the North-west Mounted Police Department, notwithstanding the transfer of Indian affairs to the Minister of the Interior.

## DEED.

In Belleville, on Tuesday, October 4th, 1887, ABRAHAM L. SMITH, aged 71 years, 8 months and 16 days.

The funeral will take place from the residence of S. H. Smith, Charles Street, on Thursday afternoon, October 6th, at 2.30 p.m.

## SCRATCHED 28 YEARS.

A SCALY, ITCHING, SKIN DISEASE, WITH ENLARGED SUFFERING, CURED BY CUTICURA REMEDIES.

If I had known of the CUTICURA REMEDIES I might not have had so much suffering. I have been suffering from a scaly, itching, skin disease for 28 years. It spread rapidly all over my body and made me miserable. The scales were so thick that I could not feel the skin. I tried many remedies but none did me any good. I was told that I should try CUTICURA. I did so, and I am now cured. I can now feel the skin and I am happy. I can now feel the skin and I am happy. I can now feel the skin and I am happy.

What some of the doctors said was very strange, some went to the point, some did not. I went to two or three doctors, and no cure. I was told that I should try CUTICURA. I did so, and I am now cured. I can now feel the skin and I am happy. I can now feel the skin and I am happy. I can now feel the skin and I am happy.

I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years.

I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years.

I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years.

I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years.

I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years.

I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years.

I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years.

I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years.

I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years.

I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years.

I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years.

I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years.

I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years. I have had my skin all clear and free from scales for many years.

Maurice, of Toronto, France, \$20; also smaller sums and gifts in kind. (Of the former there will be a full list embodied in the annual report.) Mr. Aris, Mrs. Freeman, and other market gardeners have been most kind in their gifts of fruit and vegetables all the year through, and, in addition, in the summer, for printing our last gift free. We were gratified by receiving \$21 from the Grand Jury, as a mark of appreciation for inspecting our work. The aid of the Trustees are due to the many kind friends who have assisted them; to the Clergymen who so kindly officiate at the Hospital every Sunday; to the Physicians who so faithfully attend the sick; to the Oldfellows' Band, who are always ready to play whenever asked; to all who have given aid in our enterprises.

While thus thanking our many friends for their kindness, we trust that they and many others may be stirred by the encouraging reports of last year's success, to take greater liberality; in this manner showing their appreciation of the work done and enabling us to meet the increased demands of our growing work; that we all may earn the commendation of our Lord, "Well done, good and faithful servant; inasmuch as you have done it unto one of the least of these my brethren, you have done it unto me."

A FACT WORTH REMEMBERING. Mrs. J. E. Binnie, of Toronto, states that her little baby, when three months old, was as bad with summer complaint as under doctor's treatment he had ever been. Of four boxes of Dr. Fowler's Little Children's Cure, he is now well and healthy.

John Bright loves Ireland.

LONDON, Oct. 4.—John Bright has written a letter in which he says that he has never been more a friend of Ireland than now. When objecting to hand that unfortunate country over to the rule of revolutionary, rebellious conspirators, justice to Ireland requires not only that the Irish should be just, but that they should be obeyed. It is my sympathy with the Irish people which forces me to offer a strong opposition to Gladstone and Parnell. The latter is not changed. The former five years ago condemned and denounced him, but now he comes forward as his apologist and defender."

## THE VERMIN OF IRELAND.

WHAT FATHER O'LEARY THOUGHT THE NATIVE POLICE.

DUBLIN, Oct. 4.—Father O'Leary, of St. Louis, in delivering an oration on Patrick Sarsfield at Limerick yesterday, avowed that he was a Socialist and a rebel at heart, as was every Irishman. He denounced the police as the vermin of Ireland, and said they seemed to be Irishmen when they donned the government uniform.

## EVERY DAY SAYINGS.

"Who do you buy your neckties from? You always have something nobly." "Oh, from Sam Retallick."

"And your shirts it is immense. Whose make, Sam's?" "Yea."

"And look at the dandy umbrellas, where do you get it?" "At Sam Retallick's."

"\$2.00, cheap, at Sam Retallick's. How much, Billy? Bill, too! When?"

That new collar knuckles everything silly, and it looks well on every person. The gloves he is selling are just what you need for fall. Rubber coats are cheap at S. G. RETALLICK.

## S. G. RETALLICK.

ESTABLISHED 1870.

## S. A. HYMAN

Front St., Belleville.

In soliciting the patronage of the public, for the approaching season, I wish to draw attention to the fact that my stock of manufactured Furs and Skins is, without doubt, one of the largest and most extensive ever shown in Canada.

I have several new lines in Ladies' Furs to which I would like to call their attention.

## "LANDSDOWNE!"

In South Sea Seal and Persian Lamb:

LANDSDOWNE AS A CAT.

LANDSDOWNE AS A BONNET.

Although the Landsdowne cannot be expected to fit two heads, at the same time it can be worn as a Cap by one member of the family and as a Bonnet by another.

I have also in South Sea Seal and Persian Lamb two other new shapes in Ladies' Caps: the "Peek-a-boo" and the "Dusky," which are very handsome.

The new Carmel Muffs and driving Collars and Buffs in Canadian Bear, Alaska Sable, Beaver, South Sea Seal and Persian Lamb.

Something very new in Boas and Muffs, in Red Fox, Silver Fox and Grey Fox. Also in South Sea Seal, Persian Lamb, Beaver and Otter.

Ladies' Walking Jackets, the latest New York styles.

Ladies' Ulsters and Sacques in South Sea Seal, Persian Lamb, Bokhara Lamb and Imitation Persian Lamb, which is difficult to distinguish from the real Persian Lamb.

Ladies' Fur Trimmings of every description by the yard or cut to order.

Ladies' Gauds, Gloves, and Mitts, in South Sea Seal, Otter, Persian Lamb, and Beaver.

Persian Lamb Coats, Beaver Coats, Bokhara Coats, Raccoon Coats, Fur Linings with Otter Collars and Cuffs, and Fur Linings in Mink and Muskrat. Also the Canadian Lamb Coat, which is worth from \$25 to \$35. It is a black curly coat free from dye, and it will outwear any coat for the price that is made.

Gents' Fur Collars and Cuffs, in Seal Otter, South Sea Seal, Otter, Persian Lamb and Beaver.

Gents' Fur Caps and Gauds in Seal Otter, South Sea Seal, Beaver, Otter, etc., etc., in all the latest shapes.

## Gentlemen's Department.

Persian Lamb Coats, Beaver Coats, Bokhara Coats, Raccoon Coats, Fur Linings with Otter Collars and Cuffs, and Fur Linings in Mink and Muskrat. Also the Canadian Lamb Coat, which is worth from \$25 to \$35. It is a black curly coat free from dye, and it will outwear any coat for the price that is made.

Gents' Fur Collars and Cuffs, in Seal Otter, South Sea Seal, Otter, Persian Lamb and Beaver.

Gents' Fur Caps and Gauds in Seal Otter, South Sea Seal, Beaver, Otter, etc., etc., in all the latest shapes.

## OAK HALL!

## NOTICE!

## Tailoring Department

We have one of the largest and most complete stock of Trench and Overcoats in the city. Suits made to order from \$5.00 up. A good fit guaranteed.

## UNDERCLOTHING:

A large and well selected stock to choose from at very cheap.

## CARPETS:

Our Carpet and home furnishing department is now complete, and one of the largest in the city. N. B.—These call and examine our stock. No trouble to show goods.

## GLASGOW WAREHOUSE.

JAS. W. DUNNET.

Belleville, Sept. 30, 1887.

## Daily Intelligence.

BELLEVILLE, THURSDAY, OCT. 6.

## Coal in Ottawa.

In Ottawa the price of coal has advanced to \$7 per ton.

## Rathbun Car Works.

The Rathbun car works, at DeLoraine, are turning out a large number of freight cars for the Canadian Pacific Railway.

## A Quiet Night.

The police had a quiet night. One drunk was the only victim they found to gather in the morning he was discharged.

## The Coffin Dam.

The main pipe for the water works is down half way across the river. The dam for the other half is being constructed under the management of Mr. Geo. H. Pope.

## Natural Gas.

Another well driller has struck natural gas near Peterborough at a depth of 60 ft. The flow is feeble and soon burns out. It is thought that a greater depth would secure a more abundant supply.

## TEMPERATURE.

As Registered by Dr. Bell's Self-Registering Thermometer.

THURSDAY, OCT. 6.  
Maximum 59; minimum 45.  
Barometer 29.95.

## Cooper vs. Greatrix.

The bicycle race between L. B. Cooper and W. R. Greatrix for the \$50 challenge medal is down as one of the events at the Peterboro fair for to-day. Mr. Greatrix telephoned yesterday morning that the track would be fit to ride on in the afternoon.

## John Street Church.

An alteration which will greatly improve the Sunday school room of the John Street church is being made, under the direction of Mr. Jas. Smith. The partitions dividing the ground floor into an audience room, infant class room and minister's vestry are being removed, making one large room.

## Personal.

Major T. C. Lantz and bride have returned home after a delightful trip to New York.  
Samuel McDonald, of Camden, New Jersey, is spending a few days in the city visiting his sister Mrs. S. J. White, Albert street.

## Stone Throwing.

The dangerous practice among boys of throwing stones should be stopped. If parents cannot teach their boys to behave properly on the streets and respect the rights of others, the police should. Yesterday at Willis Allen, an apprentice in this office, was passing along Catharine Street a boy threw a stone, inflicting a severe cut on the back of his head. It has been learned that the boy who threw the stone was Lou Wallace.

## Avoid Baldness or Grey Hair

Use Dr. Downward's Great German Hair Magic. It keeps the scalp clean and free from dandruff and promotes the growth of the hair. It prevents premature greyness and stops any falling out of the hair. On bald heads, where the roots have not perished, it will invigorate them and force a new growth of hair. Ask for Hair Magic. It is the only reliable. For sale by all druggists in Belleville and all parts of Canada.

When baby was sick, we gave her Castoria.  
When she was a child, she used to take Castoria.  
When she became Mrs. Allen, she gave to Castoria.  
When she had children, she gave them Castoria.

**PROBABILITIES.**  
TOMORROW, Oct. 6.—Moderate southwest to southeast winds; mostly fair weather, with light showers in some localities. Not much change in temperature.

## In Winter Quarters.

The steamer Ella Ross has been put into winter quarters at Smith's Falls and the members of her crew who reside in Kingston have returned home.

## Claims for Damages.

It is understood that Mr. J. W. Murray has entered a claim for \$100 against the water works company, the value of his horse which was cast in the trench on Dundas street.

## A Liverman's Misfortune.

Mr. John Nicholson, the liverman, is still suffering severely from the effects of his accident of Monday night. Three ribs are broken. Last night he was restless and sleepless.

## Another Change.

Mr. Jas. A. Orr, one of the proprietors of the Tweed News, has sold his interest to Mr. W. Little, his partner, who will in future conduct the business. The paper says: "The news enters upon the second six months of its existence this week. It has lived a week longer than its predecessor, the Herald, at least, and there is considerable life left in it yet."

## The Baseball Championship.

The Kingston News says: "It is definitely stated that the amateur Kingston and the amateur Park Nine clubs will play the two games yet unplayed and which will settle the championship. The two clubs are not disbanded. They released their paid men to certain expenses, which were heavy owing to the unsettled weather prohibiting any games being played."

## A Loyalist Removes to Thorlow.

The *Intelligencer* Tribune says: "We have before us the commission of Abolam Daly as ensign of the second regiment of Addington, bearing date, 1st May, 1887, and given under the hand of Sir George Arthur, Knight, Lieutenant Governor of the Province of Upper Canada, Major General commanding Her Majesty's forces therein, etc. Mr. Daly has been one of the oldest residents of Belleville up to within a few days, and we are sorry that, owing to his falling health, he has removed to Thorlow and will reside with his brother, Mr. P. R. Daly."

## Customs Returns.

Goods entered for consumption at the port of Belleville during the month of September, 1886 and 1887.

| IMPORTS.  | Value.      | Duty.      |
|-----------|-------------|------------|
| 1886      | \$31,423.00 | \$8,423.00 |
| 1887      | 42,765.00   | 9,431.52   |
| Increase. | 11,342.00   | 1,008.52   |
| EXPORTS.  | Value.      | Duty.      |
| 1886      | \$2,700.00  | —          |
| 1887      | 67,200.00   | —          |
| Increase. | 64,500.00   | —          |

## "Mary, Queen of Scots."

The Opera House was well filled last night to witness the presentation of *Mary, Queen of Scots*, by the Star Theatre company. Miss Scott, who took the role of the unfortunate Mary Stuart, was enthusiastically received and twice called before the curtain. She gave a magnificent rendition of the character and in the scene where she kneels Elizabeth in the park and pleads for mercy and is spurned by her royal sister, the power and pathos she threw into her acting fairly held the audience spell-bound, and again in the last scene when "With slow and steady steps there came a lady through the hall. And bending almost double the lips and touched the hearts of all." on her way to the block, and when she bids farewell to her maid and Melville. Mr. O'Brien, as Leicester, sustained the good impression that his former efforts had made. Miss Ella Bennett as the iron-willed, imperious Elizabeth had a clever conception of the character she assumed and exhibited much dramatic talent in the support was excellent. The good house that greeted the company last night shows that their popularity is established. The audience, as on previous evenings, was delighted with the performance.

## BELLEVILLE.

"I have used Dr. Fowler's Extract of Wild Strawberry, and found it a very cure for sum. I was very sick, and it cured me entirely." Alexander W. Clark, Moore Creek, Ont.

## MEXICAN WRITING.

SHORE Parian and Sullana cigarettes; for sale by S. McCullough.

Those who have tried, say that the very best American Goid Oil is to be got at Geese.

EAST INDIA Tonic Bitters is a good tonic and Blood Purifier and contains one of the best known remedies for kidney troubles.

Mr. Douglas Russell, the well-known evangelist, will visit Belleville next Sunday. Gospel service 7 p.m.; Bible reading at 3 p.m.

MATINEE.—The Clairmont company will give a matinee on Saturday afternoon at 2.30, when they put on the boards "Galatea."

WE MUST SELL.—We must sell those coats, hats and pants that we have on hand. They must go without respect to cost, and bargains may be expected.—J. Hennessy.

BELLEVILLE gentlemen in want of hand some finished and fashionable clothing cannot do as well as call on Hennessy, who shows the largest and finest stock in the city.

Miss M. Carey, Teacher of Drawing and Painting. Terms, &c., on application at Miss Martin's school, Lingham Hall, John St., from 3 to 4 every afternoon. Orders taken for painting on silk, satin, &c. 131d.

## St. Mark's Church, Deseronto.

OPENING OF THE NEW CHURCH—WHO TOOK PART IN THE SERVICES.

St. Mark's church, Deseronto, was formally opened for public worship on Sunday. Rev. W. B. Carey, Kingston, preached morning and evening to overflowing congregations. The church is a handsome structure, beautifully situated. The foundation stone of the new church, which is its origin to the fore of Rev. E. H. M. Baker, formerly of Tyndunaga, and now of Bath, was laid by the Lord Bishop of Ontario on Aug. 19th, 1880. The basement was finished some years ago, and the congregation has been holding services there for some time. The edifice is Gothic in style and 54 feet x 32 feet. The rector is Rev. Rural Dean Stanton, formerly of Barrie, and Rev. Robt. Atkinson, being curate.

At a tea meeting held on Monday, Rev. W. B. Carey, Rev. J. W. Burke, of Belleville, and Rev. G. A. Anderson, Tyndinaga, gave interesting addresses. Fifty dollars was received by the tea-meeting. Deseronto has now four handsome and substantial church edifices. It is only six years ago since all religious denominations worshipped in the little Union church. The Bishop of Ontario held confirmation in St. Mark's church on Oct. 10th.

## The Water Works.

Up to yesterday over five miles of pipes had been laid. The workmen are busy many and give them some idea of the magnitude of the work accomplished. But half the work is not yet done, over nine miles of pipes are yet to be laid.

Between 175 and 200 men, divided into four gangs, are now working on the water works. The steam drills are on Front St., while gangs are at work on Dunsmuir, Bridge, and Dundas Streets.

The engines for the pump-house are expected daily, and will be put in place immediately upon their arrival. It will take two weeks or more to put them up.

Mr. Shannon has 1,000 feet of the outer end of the section pipe in place. He has still 700 feet to lay by his steam drill. The work has proved a great success.

As soon as the section pipe and the pipe under the river are laid, and the pump put in place, water will be turned on.

Water can be supplied without the aid of the stand-pipe, which has not yet arrived. It is expected, however, that it will be put up this fall.

## PORT HURON, Ont., May 2nd, 1887.

I was a sufferer from a long standing case of catarrh being well up in years (72) hardly expected to ever obtain anything that would give me material or permanent relief. At the time of meeting Neal Balm I was very badly catarrh, but took great pleasure in stating that on the second night I obtained wonderful relief and in fact the medicine worked so fast that its cost for the immediate relief it gave. I feel confident the second bottle will effect a permanent cure. I have recommended Neal Balm for catarrh in the head and in every case it acted like a charm.

Yours truly, T. W. HUNT.

## Two Weights and Measures Prosecutions.

On the 4th inst. the District Inspector of Weights and Measures had Charles Pickle, of Oshawa, before George H. Corbett, Esq., Police Magistrate of Trenton, for violation of the Weights and Measures law, he having used an unapproved scale.

Trenton. He was fined \$5 and costs, and on the same day A. Scott, of Lakeport, answered to, and pleaded guilty to two charges before G. W. Webb, Esq., of Cobourg, for using a spring balance, for refusing to produce for inspection the weighing machines in his possession. Over five hundred seizures in the Belleville Weights and Measures District—seven counties—having failed to deter people from using illegal weighing machines and measures, the District Inspector is trying what effect a few prosecutions will have.

The seizures made at Trenton and Cobourg are due to the zeal of Mr. Thomas Slattery, Assistant Inspector, who, Mr. Johnson says, is "one of the best of officers."

## Cutters for the Lakes.

We learn from *Forest and Stream* that Mr. F. Kunkhardt, of New York, has finished some handsome plans of a cutter of the beam type for gentlemen in Kingston, Ont. She is thirty ft. long, 12 ft. over all, including a 7 ft. hull and a fashionable clipper stem, with ballast of 3.5 ft. Beam at waterline is 11 ft.; draft 5 ft. 4 in. Displacement, 11 tons, with 55 tons ballast, a large portion of which will be on the keel. Least free board to plankboard is 2 ft. Mast, deck to binnacle, 27 ft. 6 in.; boom, 32 ft.; gaff, 22 ft.; topmast, cap to sheehook, 16 ft.; bowsprit, beyond forward perpendicular, 10 ft.; over all area, 1,000 sq. ft. Mr. K. has also in hand another cutter for the lakes of about the same size, but somewhat narrower and deeper. She will also have a clipper stem.

## Gael Statistics.

From the annual report of the County gaol we glean the following:

|                         | Males. | Females. | Total. |
|-------------------------|--------|----------|--------|
| Committed during year.  | 180    | 34       | 214    |
| Unlawful entry.         | 1      | 0        | 1      |
| Sent to Central Prison. | 9      | 0        | 9      |

## Grand Wampum Demonstration.

Nashua, Grand River and Ontario. Chiefs to be at the Reserve on the 18th.

The Six Nations Mohawks of the Bay of Quinte intend to hold a grand Wampum demonstration in their Grove on the 18th of October. The Six Nations Chiefs from the Grand River, Ontario, and the Six Nations Chiefs will pursue the wampum belt, and the silver pipes of peace will be present on the occasion.

Children Cry for Pitcher's Castoria.

## Yachting.

THE CHANCES OF A CANADIAN-BUILT YACHT.

HAMILTON, Oct. 5.—Not a few yachtsmen here, recalling the triumph of the *Annie* Cuthbert and the *White Wings*, and considering how Captain Cuthbert was hampered for lack of funds when he built the *Annie*, are anxious to see a Canadian-built yacht. The *Annie* was built in the United States, and has a hull of iron. The *White Wings* was built in the United States, and has a hull of iron. The *Annie* was built in the United States, and has a hull of iron. The *White Wings* was built in the United States, and has a hull of iron.

## STRUCK WITH LIGHTNING.

Nearly describes the position of a hard or soft rain. It is a fact that lightning strikes a person who is standing under a tree. It is a fact that lightning strikes a person who is standing under a tree.

## Another Tall Chimney.

A GERMAN COMPANY TO OPEN A LARGE FACTORY IN CANADA.

MONTREAL, Oct. 5.—The proprietors of the Dusseldorf, Germany, Tube Works are about to erect a mill in Canada to supply the Canadian market with their goods, which already have a large sale here. The new mill on iron has caused this step to be taken and is another evidence of the good results attending the policy of protection.

As for the work has not yet been selected, but a suitable location is being sought. A large number of hands will be given employment in the mill. Mr. G. Lomer, Jr., the representative of the company in Canada, goes to Germany in a couple of weeks to confer with the principals on the subject and complete arrangements for the erection of the works.

## FOR DELICATE SICKLY CHILDREN.

Scott's Emulsion is unequalled. See what Dr. G. A. Black, Auburn, N. Y., says: "I have been acquainted with Scott's Emulsion for years, and consider it one of the best preparations now before the public. Its pleasant flavor makes it the most favorite for children, and it is highly recommended for all wasting diseases of children and adults. Put up in 8c. and 25c. bottles."

—Jacob Sharp has spent over two hundred dollars trying to cure the law.

—Henry George is official of polling 200 votes in the coming election.

—Three more vessels—one British and the other two American—have been seized for sealing on the Behring Sea.

—Thomas J. Mooney, who tried to burn the steamship Queen some time ago, has been adjudged insane and committed to the Poughkeepsie asylum.

—Callinan, the moonshiner, who turned Queen's evidence in the trial of Constable Whelan's murderers, acknowledged that he was in the pay of the police, and that he arranged the raid on the Sexton house.

—In the Hamilton election case, the bribery charges on the ground that agency was proved. The result was a conviction, proceeded with, and at the close of yesterday's proceedings eleven of Judge Upper's jury had been returned, leaving Mr. Colter ten ahead.

—According to official information the past season will prove a red letter period in the history of settlement in the Northwest. There has been a steady growth in the business of the Interior Department, indicating the extent of the land transactions in all territories. It is expected that the revenue from this source alone will exceed \$40,000 last year's receipts, which in turn showed a corresponding increase over those of 1885.

## A FACT WORTH REMEMBERING.

Mr. Jas. Blinn, of Toronto, states that his little baby, when three months old, was so bad with summer complaint that under doctor treatment her life was despaired of. Four doses of Dr. Fowler's Wild Strawberry cured her, she is now fat and happy.

## QUITE CORRECT.

"I have used Dr. Fowler's Extract of Wild Strawberry, and found it a very cure for sum. I was very sick, and it cured me entirely." Alexander W. Clark, Moore Creek, Ont.

ELLY'S CREAM BALM

When applied to the nostrils, will relieve the head of a cold, and effectively cleanse the nasal cavity. It is a perfect remedy for all nasal troubles, and is a perfect remedy for all nasal troubles.

NASAL BALM

Tottenham, Ont., May 2nd, 1887.

I have been troubled with nasal catarrh for the last five years. Having used Nasal Balm, I have found it a perfect cure. I have used it for five years, and it has cured me of all my troubles. I have used it for five years, and it has cured me of all my troubles.

CURE FOR DEAF

PIER'S PATENT IMPROVED CHAMBER MUSIC BOX. It is a perfect remedy for all nasal troubles, and is a perfect remedy for all nasal troubles.

TO LET.

THE HOME of the late Frank Smith, lately occupied by Messrs. Mills & Davis, is immediately south of the Gibson House. Apply to Mrs. LINTH, George St.

Children Cry for Pitcher's Castoria.

## EVERY DAY SAYINGS.

"Who do you buy your neckties from? You always have something nobby." "Oh, from Sam Retallack."  
"And your shirts fit immense. Whose make, Sam's?" "Yes."  
"And look at the dandy umbrellas, boys! How much, Billy I. Bilk, too! When?" "So cheap, at Sam Retallack's."  
That new collar knocks everything silly, and it looks well on every person. The gloves he is selling are just the thing for fall. Rubber coats are cheap at S. G. RETALLACK.

S. G. RETALLACK.

Steam Laundry attached. The shirt maker and gent's furnisher.

## CONFIDENTIAL.

If our trade in GENTLEMEN'S FINE BOOTS continues to increase, as it has done in the past year, we shall soon have as large a trade in fine Ready Made Boots for gentlemen as we have for ladies. This we confidently expect, as we believe the time will soon come when nearly all gentlemen will fit themselves from stock already made instead of leaving their measure.

New Dress Goods, extra good value, at 10c., 12c. and 15c.

Black and Colored Silks. Full range, 75c., 85c., and \$1.00. Best bargains in the city.

## BRIGNALL &amp; THOMPSON.

ESTABLISHED 1870.

## S. A. HYMAN

Front St., Belleville.

In soliciting the patronage of the public, for the approaching season, I wish to draw attention to the fact that my stock of manufactured Furs and Skins is, without doubt, one of the largest and most extensive ever shown in Canada.

I have several new lines in Ladies' Furs to which I would like to call their attention.

"LANSLOWNE!"

In South Sea Seal and Persian Lamb:

LANSLOWNE AS A CAP.

LANSLOWNE AS A BONNET.

Although the Lansdowne cannot be expected to fit two heads, at the same time it can be worn as a Cap by one member of the family and as a Bonnet by another.

I have also in South Sea Seal and Persian Lamb two other new shapes in Ladies' Caps: the "Peek-a-boo" and the "Busby," which are very handsome.

The new Carnival Muffs and driving Collars and Cuffs in Canadian Seal, Alaska Sable, Beaver, South Sea Seal and Persian Lamb.

Something very new in Boots and Muffs, in Red Fox, Silver Fox and Grey Fox.

Also in South Sea Seal, Persian Lamb, Beaver and Otter.

Ladies' Walking Jackets, the latest New York styles.

Ladies' Ulsters and Scaques in South Sea Seal, Persian Lamb, Bokhara Lamb and Imitation Persian Lamb, which is difficult to distinguish from the real Persian Lamb.

Ladies' Fur Trimmings of every description by the yard or cut to order.

Ladies' Gauntlets, Gloves, and Mitts, in South Sea Seal, Otter, Persian Lamb, and Beaver.

Gentle's Department

Persian Lamb Coats, Beaver Coats, Bokhara Coats, Raccoon Coats, Fur Linings with Otter Collars and Cuffs, and Fur Linings in Mink and Muskrat. Also the Canadian Lamb Coat, which is worth from \$25 to \$35. It is a black curly coat free from Dye, and it will outwear any coat for the price that is made.

Gentle's Fur Collars and Cuffs, in Sea Otter, South Sea Seal, Otter, Persian Lamb and Beaver.

Gentle's Fur Caps and Gauntlets in Sea Otter, South Sea Seal, Beaver, Otter, &c., in all the latest shapes.

ROBES.

The Rawdon Fair.

A LARGE AND FINEST-SELECTED

Live stock at a prominent item of the

fair.

The Rawdon Township fair was held on

the 6th inst. It was a success and

was no exception this year, every de-

partment was well filled and competition

for prizes was keen. Live stock was the

most prominent feature and the exhibit

was excellent. The people of the township

take a pride in the fair and will they may

have a fair of the same kind. The society

has quite a tract of land enclosed near the

Town Hall, with sheds and pens for the use

of exhibitors.

The following is the prize list:

CLASS A—GENERAL PURPOSE HORSES.

Station 4 years old and upwards—1st

W. Thompson; 2nd S. Young; 3rd

Station 3 years old—1st Wm. Van-

dervoort; 2nd Wm. Sharp.

Station 2 years old—1st Wm. McMa-

ster; 2nd J. G. Gilling; 3rd J. B. Russell.

BEHAVIOR, THURSDAY, OCT. 13

BY IMPLICATION.

Mr. Wm. L. is a person that he delivered not long since, said that there were many residents of New York whose incomes were so large that their personal expenses were of no consequence to them, and that to such men ten or twenty cents per pound more or less for butter would make no difference.

The implication was that with commercial union, our farmers would receive from ten to twenty cents per pound more for their butter. Would it not be a strange freak should the Americans give no higher for our farmers for butter than they pay to others? We opine that such would not be the case, nor does any sensible man suppose for a minute that they would do so, hence in the event of butter being no higher in New York than in Canada, it shows how intentionally misleading are the arguments of Mr. Wm. L.

In this city talk butter is worth from 16c to 20c, per lb. and good rolls from 25c. to 30c. In Montreal on Oct. 11th butter is quoted as follows:

|           |    |        |
|-----------|----|--------|
| Creamery  | 21 | 22 1/2 |
| Wholesale | 17 | 18     |
| Montreal  | 17 | 18     |
| Quebec    | 17 | 18     |
| Waters    | 15 | 16 1/2 |

The New York correspondent of the *Utica Herald*, under date Oct. 8th, notes as the price of butter in New York:

Utica last week's creamery make.....27  
 Good to choice creamery.....28 1/2  
 Fancy first delivery.....29 1/2  
 Good to choice private dairy.....26 1/2  
 Low grade butter.....25 1/2

This shows the deceptive nature of the arguments of the exponents of commercial union, who, by such means, lead the people to believe that commercial union is in their interest.

## EDITORIAL BRIEFINGS.

Good apples are selling for nine cents a bushel in portions of Delaware and Sullivan counties.—*Orange Times*, Oct. 8.

How much would it be worth to the Canadian fruit growers to have this part of the fabled "market of six millions" opened to them? Or rather, how much would it benefit the New Yorkers who are selling their apples at a bushel to have the Canadian market at their command?

The British free trader, the French Canadian who fears disunion implications, and the annexationist who knows that C. U. would make our people so contented that no one would want political union, are all welcome recruits to the anti-commercial union camp.—*Toronto News*.

The *News* is rather misinformed in this subject. The French Canadian who fears annexationist implications oppose commercial annexation if, as the *News* professes to believe, it "would make our people so contented that no one would want political union." We should like to see an annexationist who is opposed to commercial union. The few who lead a miserable existence in this part of the country are unanimous in support of the project; and, moreover, for Fred. Gold's sake, the French-British and others of its leading advocates state that commercial union is inevitably tied to political union.

The Montreal *Herald*—a Grit organ—demands that Mr. Laurier, the leader of the party, shall declare in favor of commercial annexation, because the Liberal party is in favor of free trade with the United States.

The Toronto *News* (Independent Grit) says: "We are not to be grossly deceived to learn that the Mercier Government have reconsidered their scheme of raising timber rents from \$2 to \$5 per acre, and have finally fixed the figure at \$3. The reduction throws some light on the extraordinary result of the Ottawa county election, where the influence of the lumbermen is all powerful."

Not every bushel of Manitoba grain to ship to the world.—*Toronto Telegram*.

Thousands of millions of men, *United Telegram*, say that we have been told by the Winnipeg Board of Trade may send a delegation of its haves to sail you!

The Indians of our North-West are becoming civilized. One of their chiefs was many years for his exhibits of agricultural products at one of the fair held in the territories.

The Montreal *News* wishes us to name some Grit Ministers and ex-Ministers who have been unseated for political or personal corruption. What does it think of Laflamme, Jones and Vail? What, also, of Anglin, who was the Grit Speaker, and of Clouston, who dealing with the Esquimaux party has been referred to in press.

May forget that the hair and scalp need dressing. Extreme use of Ayer's Hair Vigor has the effect of making the hair fall out, and the hair that remains grows thin and brittle.

Crime in Ireland.

LONDON, October 12.—At the Killarney quarter sessions, yesterday, the doctored showed that only two of the large number of cases were wholly non-political, the entire batch, with these exceptions, relating to violations of the Crimes Act. The judge expressed himself as being surprised that the ordinary crime had been almost totally abandoned, but he was not surprised that the people had not themselves against a single law.

No Chance of Heaton.

LONDON, Oct. 12.—Speaking at Belfast yesterday, Mr. Chamberlain said he feared it would be impossible to effect a union of the Liberals. He referred to the length of the rights of the minority, and claimed that Ulster was the centre of intelligence of the country.

Death of Lady Brassey.

LONDON, Oct. 12.—Lady Brassey died on board the "Sunbeam," her husband's yacht, while going from Austria, and was buried at sea.

Children Cry for Pitcher's Castoria.

## The Latest Railway Disaster.

CRIMINAL CARELESSNESS CAUSES THE LOSS OF THIRTY LIVES.

The terrible collision, or "pitch-in," as it is called, which took place near the town of Buffalo, N.Y., on the 10th inst., has been caused by mismanagement of the very most description. A heavy passenger train was overtaken from a station, with a partially disabled engine, which could only make use of its cylinder motion, and a fast freight train, probably upon as heavy a train as the passenger. Two minutes after it was at a station where a stop was made for water, the disabled engine, the passenger train "got upon her centre," that is, her piston and crank got in such a position that her steam power had no effect on them, and the train was delayed for some minutes. At this time the engineer of the passenger train had been to see the lights of the fast freight, behind his train, and the two trains were in motion. No special precautions were taken to prevent an accident. A danger signal was hung on the back of the delayed train, but a brakeman was not sent down the track with a lantern, something which would have been well managed road whenever a train is stopped on the main line, though no train should be allowed to pass over it. It appears to have been a switch, though the wrecked train upon which the following passenger train could have been seen, and the wrecked train was not stopped. The passenger train, which was on the heavy freight, crashed into the disabled passenger train, crushing three coaches into one, and wrecking the engine and the remainder of the train.

The wreck at once caught fire from the fire-box of the freight engine, and there was a conflagration which spread rapidly down the track and free the passengers; although the train was at a station, there were no passengers on board, but a number of between thirty and forty lives were lost. It seems hardly possible that anything more could have been done to render the accident as complete and fatal as possible. The officials who were responsible for it, first, sent out a passenger train, and a partially disabled engine; second, starting a freight train within two minutes of the disabled passenger train; third, not sending a man down the track to stop the approaching freight; fourth, not switching off the power of the freight engine; and fifth, the lack of tools to break up the wreck, should certainly be criminally indicted.—*Witness*.

## The Morocco Disaster.

WHY THE STATES OF THE WORLD ARE TO MARKET.

Paris, Oct. 12.—The *Journal des Debats* says France does not desire to take possession of Morocco, but to render it a material interest of Spain. Moroccan waters will soon witness an assembling of men-of-war of all countries, and the country will be represented. The precise object of this assembling is unknown, and it is possible that the bodies of the nations are widely divergent intentions. If the object is to guarantee the equilibrium of the Mediterranean, the assembling is perfectly proper and very dangerous. France and Spain, who alone have direct and positive interests in Morocco, are to be prevented from becoming a second Bulgaria, should establish a mutual understanding. The *Journal* expresses a hope that the Sultan will recover, and that the men-of-war will leave, which is the best thing that can happen for Morocco.

## BE PREPARED.

Many of the latest attacks of cholera morbus, dysentery, and other ailments are due to the use of impure water. To prevent this, use only pure water, and keep it in a clean container. For further information, see the advertisement for "The Pure Water" on page 10.

## A Terrible Storm.

FEARFUL DESTRUCTION OF LIFE AND PROPERTY.

NOGALES, Arizona, Oct. 12.—One of the most disastrous storms ever known on the southern coast of Mexico occurred on the 7th and 8th. The town of Nogales, a town of more than 8,000 people, was totally destroyed, and many lives were lost. The storm was a combination of a typhoon and a hurricane, and it was the most powerful ever known in the Gulf of California.

## Mr. Chamberlain's Reception.

LONDON, Oct. 12.—Mr. Chamberlain's reception at the hands of the Belfast Orangemen was an enormous affair. Mr. Chamberlain was met by a large number of Orangemen, and he was escorted to the hotel in a procession. The reception was a great success, and it was a great honor for Mr. Chamberlain.

## The Morocco Question.

MADRID, Oct. 12.—France and Italy have accepted Spain's invitation to hold a conference in Madrid on the Moroccan question. It is expected England will participate.

## TROOPS.

OCTOBER 12.—It is reported that 3,000 troops will be concentrated here and be held in readiness for immediate action in case of trouble in Morocco under their services necessary.

## Almost a Riot.

SOFIA, October 12.—A riot that almost culminated in a revolt, occurred at Ratiavina on Sunday. A newly arrived Russian priest led a party of peasants in an attack upon the Government offices. The gendarmes fired upon the mob, but it was found necessary to call out a body of cavalry to disperse the rioters. Many were injured.

## SCOTTS REMOVAL OF COAL-FUEL OIL.

AND BY THE WAY, IT IS A SUPERIOR FUEL. It is the best fuel for use in the home, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. It is the best fuel for use in the engine, and it is the best fuel for use in the boiler. It is the best fuel for use in the furnace, and it is the best fuel for use in the kiln. It is the best fuel for use in the mill, and it is the best fuel for use in the mine. It is the best fuel for use in the house, and it is the best fuel for use in the factory. It is the best fuel for use in the ship, and it is the best fuel for use in the locomotive. Colors—Black, Blue, Green, Red, Yellow, Orange, Purple, and all the latest shades.

A large assortment of them, and all the latest styles.

Colors—Black, Blue, Green, Red, Yellow, Orange, Purple, and all the latest shades.

A large assortment of them, and all the latest styles.

Colors—Black, Blue, Green, Red, Yellow, Orange, Purple, and all the latest shades.

A large assortment of them, and all the latest styles.

## CARPETS:

Our full Importations for the Fall now to hand. We show by far the finest assortment in the City, and our prices cannot be beat.

A fine assortment of Persian and Embroidered Carpets, Oriental, Persian, and other fine materials.

Water proof, and put up to order. Cheaper than retail prices.

## GLASGOW WAREHOUSE.

### JAS. W. DUNNET.

Belleville, October, 1887.

## Daily Intelligence.

Belleville, Friday, Oct. 14

### Base Ball.

A printers' nine had a match game with the High School nine this afternoon.

Commercial Union.

A public meeting open to all comers will be held in the city building this evening for a further discussion of the proposed commercial union.

### Seeking Charity.

An Arabian woman with a young infant in her arms, was on the streets this morning seeking charity. She could only speak her mother tongue.

### Police Commissioners.

The commissioners adjourned yesterday afternoon until Tuesday next, without coming to any conclusion with regard to the strength of the force.

### Civic Committee.

There was not a quorum of any of the civic committees which should have met last evening. The batch of business for the Council on Monday night will be small.

### Still Publishing the Reports.

Detroit, Oct. 13.—United Irish, William O'Brien's paper, to-day publishes six columns of reports of the various National League meetings, and says: "This is how coercion terrorizes the Irish."

### TEMPERATURE.

As registered by Dr. Hall's self-registering thermometer.

Thursday, Oct. 13.

Maximum 54; minimum 38.

Barometer 30.

### John St. Presbyterian Church.

The alterations being made in the Lecture and Sunday School rooms of John St. Presbyterian church, will add much more to the convenience of them and give more room.

A new organ is being built by Warren of Toronto for the church, to cost \$5,000. These improvements, and the Rev. Mr. George's growing popularity will doubtless add, materially, to the congregation and Sunday School.

### Quinte District Fair.

The directors and others of the Quinte District fair met in the police court room yesterday afternoon and adjourned for two weeks to allow the Secretary and Treasurer to complete their reports. They were very successful in their efforts.

### Returned from Europe.

ADD. W. L. OF "QUEEN'S" HOTEL OF WEDNESDAY AND THURSDAY, OCT. 19 AND 20.

Prof. Dorenwend has returned from Europe, with additional ideas in manufacturing hair goods. The combs here are before stated, and will also show the most improved design and variety. His hair combs are unequalled on the American Continent.

Ladies are invited to call and see the new styles of Bangs, Portlands, Amanda, Betties, Lucy, Point, Frankie, and others. This is his first trip this fall. His stock is enormous, and as he has to make room, he has brought his raw material for cash and at a multitude of manufacturing his goods, he will sell at prices that will make it possible for everybody to buy. He will also show the latest styles of hair goods, and see his fine coverings (Wigs and Toppers).

Temperary, at Queen's Hotel, on October 19 and 20.

When Baby was sick, we gave her Castoria.

When she was a child, she used to take Castoria.

When she became a woman, she gave her Castoria.

When she had children, she gave them Castoria.

## PROBABILITIES.

Toronto, Oct. 13.—Moderate to fresh to north-west winds. Stationary or a little lower temperatures.

## Wounded His Foot.

Win. Walsh, working on the water works trench on Bridge St., perpetrated his foot with a pick at noon to-day.

## Call at the Queen's.

Ladies and gentlemen in want of a nice dress of hair, should not forget that Prof. Dorenwend will be at the Queen's Hotel on Oct. 19 and 20. Every one should go and see his new styles.

## Seriously Ill.

The Belleville friends and admirers of Mr. Chas. Justice Wattling will be glad to learn that he is seriously ill of kidney disease, and is not expected to live. A telegram this afternoon reports his condition as being more favorable.

## Three Days.

Henry Renfrew was sentenced to three days in goal by the Magistrate this morning for stealing goods from a Grand Trunk car. His previous good character, and the desire of the company not to press the charge, secured the light sentence.

## Personal.

Mr. Alex. Thompson, an old and esteemed resident of Sidney, is dangerously ill. Mr. Horace Keomans left for Toronto this morning to continue his medical course. Mr. Eben Flint, a former resident, is in the city.

## The Work of Art.

A fine work of art executed by Mr. W. Stewart Hunter is on exhibition in Mr. H. K. Smith's studio window. It is a large carbon pastel work of the mountain of the Holy Cross. It was created by the artist of the same name, and will be presented by them to the Roman Catholic bazaar. This is Mr. Hunter's best effort.

## A Veteran's Weakness.

Thos. Bush, who appears before the magistrate as regularly as pension day comes, granted the pensioner's card again this morning. He was paid \$16 by Col. Miliken yesterday. When arrested, during the evening he was wearing a hat, which he had put on to be allowed to go to Trenton, as he had work there. He was pardoned.

## Late of an Actress.

Miss Margarette St. John and her talented English company have been drawing large houses in Montreal and turning away delighted audiences at every appearance. They will appear at the Opera House on Saturday evening in the "Ides of March."

## Civic Committee.

There was not a quorum of any of the civic committees which should have met last evening. The batch of business for the Council on Monday night will be small.

## Still Publishing the Reports.

Detroit, Oct. 13.—United Irish, William O'Brien's paper, to-day publishes six columns of reports of the various National League meetings, and says: "This is how coercion terrorizes the Irish."

## Claims the Whole Earth.

INCLUDING THE WHOLE SEA—THE BRIEF OF THE UNITED STATES ATTORNEY IN THE BELLEVILLE DISPUTE.

New York, Oct. 13.—The Herald publishes the brief which is understood to have been prepared at Washington, and recently filed in the Court of the U. S. Government in the Alaska case. The U. S. claims exclusive jurisdiction of the sea fisheries of Bering's Sea. The plea in defense is that the United States have no dominion over the waters of Bering's Sea beyond a narrow league, or three leagues from the Alaska shore, as is shown by numerous authorities cited in Counselor Delaney's brief. It is a recognized principle of international law, and one which this country has always asserted that a nation has jurisdiction not only over waters within the marine league but also waters which over their extent embraced within its land, dominion, gulfs, bays, and arms of the sea belong to the country within whose land they are encompassed. Bering's sea is not a part of the open or high sea. It is, as Mr. Delaney clearly shows, "an unknown water cut off from the ocean and essentially landlocked." Before the purchase of Alaska by the United States in 1867 it was within the exclusive jurisdiction of Russia; but that purchase it passed into the exclusive jurisdiction of the United States, which succeeded in the title of Russia.

## Mr. Chamberlain in Coleraine.

Belleville, Oct. 13.—Mr. Chamberlain visited Coleraine to-day, and received a large number of admirers. He was accompanied by Mr. J. A. McLeod, of the county of Derry, Antrim and Tyrone. In an address Mr. Chamberlain said that he regretted to find himself, who had come to speak to a local Irish majority, which was not composed, as the followers of Mr. Gladstone and Mr. Parnell would have it, of a mixture of landlords and those seeking to protect their personal rights. The most enthusiastic admirers of Mr. Chamberlain were found among the sturdy Irish farmers and the small agricultural tenants and laborers, who felt that the change proposed would endanger their lives and liberties more than those of persons more fortunately circumstanced. The Government ought not to deal with poor tenants in arrears. Ireland might expect greater benefits from the Government in the future than she had received in the past. He himself had not seen the Government's purchase scheme embodying a proposal for a revaluation of land and providing money without pledging British credit. The Government are considering a similar scheme.

## THE HOUSE OF COMMONS.

Ottawa, Oct. 13.—A meeting of Council was held this afternoon, at which all the members of the Cabinet were present with the exception of Sir Hector Langevin, who is still confined to his house by illness, and Hon. Mr. Foster, who was out of town. As was generally expected would be the case at the first meeting of Council, the question of the Canadian representative on the Fisheries Commission was settled, it being decided that the representative of Canada in the Fisheries Commission should be Sir Charles Tupper, Minister of Finance.

## Guy Earlscourt's Wife:

A NOVEL.

BY MISS AGNES FLEMING, AUTHOR OF "A

WOMAN'S REVENGE."

The afternoon was a gloomy one—Miss

Maeson, standing at the window, looking

out at the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

rain, and thinking of the rain, and thinking

of the rain, and thinking of the rain, and

thinking of the rain, and thinking of the

## CONSUMPTION CURED.

An old physician, retired from practice,

having had almost in his hands by the East

India Company the formula of a simple

and powerful remedy for the cure of

consumption, Catarrh of the Throat and

Lungs, Asthma and all Throat and Lung

diseases, etc., a positive and radical cure

for Nervous Debility and all Nervous Com-

plaints, after having tested his wonderful

remedy in thousands of cases, he has

found it his duty to make it known to his

suffering fellow-men, and that he has

a desire to relieve human suffering,

will send free of charge, to all who

desire it, this receipt, in German, French,

English, with full directions for preparing

and using. Send by mail by enclosing

your name, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

physician, and the name of your

## CONSUMPTION CURED.

An old physician, retired from practice,

having had placed in his hands by an East

Ind mission the formula of a simple

vegetable remedy for the speedy and per-

manent cure of Consumption, Bronchitis,

Catarrh, Asthma and all Throat and Lung

Affections, also a powerful and radical

cure for Nervous Debility and all Nervous

Complaints, after having tested his

wonderful cure in hundreds of cases, has

felt it his duty to make it known to his

suffering fellow-men. Actuated by this

motivation and desire to relieve human

suffering, I will send free of charge, to all

who ask it, this valuable remedy, in En-

glish, with full directions for pre-

paring and using. Send by mail with ad-

dressing, naming this journal, to Geo. E.

New, 119 Poplar Street, Rochester, N. Y.

Name and Address to the Suffering.

"BROWN'S HONEYHONEY" has no equal

for relieving colds, hoarseness and infla-

mmation of the Throat, Lungs and Bron-

chitis. It is a powerful and radical

cure of all Throat and Lung Affec-

tions, also a powerful and radical

cure for Nervous Debility and all

Nervous Complaints. It is a powerful

and radical cure of all Throat and

Lung Affections, also a powerful and

## Baily Intelligence.

LIFE ON THE FARM.

At the foot of the hill the old house stands,  
Where the Baily of old spread his hands,  
The lay of a life which was  
And an island spring with a tinkling sound  
Makes a bright green spot for the dark green  
ground.

Coal as a cave is the air within,  
Beneath the surface with the tornishin  
On the evening shade, and the sun of white,  
It is sure to find a single noble  
as if the life of a solitary man  
Should take the form of a new dream!

Burned to a coal in the air within,  
Beneath the surface with the tornishin  
On the evening shade, and the sun of white,  
It is sure to find a single noble  
as if the life of a solitary man  
Should take the form of a new dream!

With the change of her bell a motherly brown—  
No trace of her image behind—  
Is leading the long dark line  
Of the Dufferin and the Dufferin line.

With a dawning swing comes down the line,  
And leaving along from the door  
Is over the water with a hammer tread.

Under the lee of the patient trees,  
On their tired side the Dufferin priests,  
The low-crooned "we" down in the soil swirls.  
There's a dawning swing comes down the line,  
And leaving along from the door  
Is over the water with a hammer tread.

With a dawning swing comes down the line,  
And leaving along from the door  
Is over the water with a hammer tread.

With a dawning swing comes down the line,  
And leaving along from the door  
Is over the water with a hammer tread.

&lt;

## HOSIERY.

200-DOZEN-200  
To Choose From.

We have just received a large consignment of Women's and Children's Hosiery, "ALL WOOL," which we intend to sell at the low price. The most of these goods are worth from fifty to seventy-five cents.

## ROBES! ROBES!!

Cost and Black, which we offer at usual at bottom price.

## CARPETS:

We pay strict attention to this Department, and have one of the best assortments of Carpets, and at prices to suit the times.

## GLASGOW WAREHOUSE.

JAS. W. DUNNET.

Belleville, October, 1887.

## Daily Intelligencer.

BELLEVILLE, FRIDAY, OCT. 21.

## Smashed His Hand.

Lynch, in Rathbun's employ, got his hand smashed in loading iron for the Water Works Company.

## Sincerely, J. H.

Mr. Wm. McKeown, Head Master of the Grier Street School, was taken seriously ill when in the school room yesterday.

## The Ciba.

The newest steamer which is being built at Desmarco to ply between Toronto and Niagara is to be called the Ciba.

## Will Leave Belleville To-night.

The remains of Hon. Lewis Wallbridge will leave Belleville for Belleville to night, and will arrive here Sunday night or Monday noon.

## Big Potatoes.

Mr. Thos. Hallstone tells of a large tuber grown on Mr. John Moore's farm, lot 14, 2nd con. Elvish, which turned the scales at 2 1/2 lbs.

## At Half Mast.

The Union Jack is at half mast over the City Hall and Government building, a tribute to the memory of the late Chief Justice Wallbridge.

## A Timely Job.

The tottering wall of the old Dufres House ruins was pulled over yesterday afternoon. During the season of autumnal gales the walls were dangerous while standing.

## Lamp Explosion.

A lamp exploded in the house of Mr. John Pepper, Albert street, last evening. The flame was soon extinguished. The fire brigade were called out, but were turned back.

## Shorthand.

Any one desirous of studying shorthand may join a new junior class to be formed at Ontario Business College next Monday morning. Apply at the college for information.

## Case Dismissed.

Jas. Hall, butcher, charged with indecent driving over the lower bridge on Tuesday last, was dismissed. His horse took fright at the engine in the river and was uncontrollable.

## New Dress.

The St. Catharines evening Journal is out in a fine new dress, which greatly improves its appearance. It is also changed for the better in its makeup. Journalism must be looking up in St. Catharines.

## TEMPERATURE.

As Registered by Dr. Bell's Bar-Registering Thermometer.

Maximum 60; minimum 46; Barometer 29.50.

## It Still Has Charm.

The roller rink still has charms for a few of its admirers. A private party charged full rate for a few hours at the Vermilion rink last evening. Saturday night the place is generally open. Fifty was the largest number drawn at any one night last.

## Synod Proceedings.

Rev. J. W. Burke was elected a delegate to the Provincial Synod and to the Mission Board. The Bishop nominated the following committee on the state of Hillier: Archibald Jones, Canon Peck, Rev. Messrs. H. Austin, A. C. Nelson, Grant, B. B. Smith, W. B. Carey, C. L. Warrall, and E. P. Crawford; also Dr. Smythe, Hon. G. A. Kirkpatrick, Judge Reynolds, Judge Macdonald, R. T. Walker, J. Burgess, A. Matheson, Dr. Wilson.

## A Springer.

As the market train was moving up Pine street yesterday afternoon, someone from the passenger coach hailed Mr. Jas. Watson, Chess Instructor, who stood on the Bridge Street corner. He was interested, and instead of being a moving picture of the passing train, became a pursuer. The train was moving briskly, but 18 stones of perspiration were shed, faster and the train was finally overtaken. The race was interesting while it lasted.

When Baby was sick, we gave her Castoria. When she was a child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, also gave them Castoria.

Children Cry for Fitcher's Castoria.

## Willing Women Workers.

LAST DAY'S PROCEEDINGS OF THE MISSION SOCIETY.

On the Holders for the Current Year.

THURSDAY MORNING.

The committee on modes of work presented their report, which was referred back for further consideration.

The memorial committee reported in reference to the request of the western branch that the board of general managers do not take up the "Blood Indian mission" as a portion of the work of this society. This clause of the report was adopted.

A committee consisting of Messrs. Goodenham, Briggs, Thompson and Atkins was appointed to consult with Rev. Dr. Sohier, general superintendent, in regard to the best means of bringing the attention of the Government to the immoral traffic done in Victoria, B. C., in young Chinese girls.

Mrs. Chandler, of Ocean Grove, N. J., was introduced and delivered an address urging upon the delegates the importance of having the objects of the Women's Missionary Society discussed more fully at the annual conference.

A new mode of procedure for the next meeting of the society was adopted and it was agreed to send another lady teacher to Japan.

Mrs. Parker was elected to conduct the Women's Missionary column in the "Outlook."

Rev. St. Augustine's memorial for an Institute at Cheltenham, N. W. T., was not entertained it being out of the province of the society to grant the petition.

The societies were notified that Miss Cartmel will visit them when requested. She was recommended, however, to take six months rest before undertaking the work.

It was recommended that each branch appoint a lady to prepare a paper for the next annual meeting on "The best methods of conducting mission circle meetings."

It was also recommended that delegates appointed from each branch be sent to the annual church conference, as has been done by the western branch, to represent the mission in these assemblies.

The committee on appropriation reported the following appropriations, viz:

Contrib. Girl's High school, \$1,400.  
French work, \$1,200.  
McDonnell Orphanage, \$1,000.  
Chinese Home, 700.  
Chilchick Home, 400.  
Japanese work, \$603.

Three hundred dollars were voted to Miss Cartmel for the present year.

Mrs. Dr. Eakin stated that the Metropolitan Church Society, Toronto, were prepared to contribute \$500 for the support of another missionary to Japan, who is to be known as the metropolitan missionary. The offer was gratefully accepted.

The society volunteered to bear the traveling expenses of the teachers.

The World's Woman's Christian Temperance Union petition on being presented by Mrs. Chisholm was signed by the delegates.

LECTION OF OFFICERS.

The election of officers resulted as follows: President, Mrs. Jas. Goodenham, Toronto.

Vice President, Mrs. Dr. Carman, Belleville.

Rec. Secy, Mrs. Addie Chisholm, Ottawa.

Cor. Secy, Mrs. Strachan, Hamilton.

Treas. Mrs. Roseburg, Hamilton.

Mrs. Morgan, Bradford, asked to start for Japan, addressed the board on her consecration to missionary work.

Miss Lee, of Nova Scotia, is to be accompanied with the view of securing for a mission for the Chinese house at Victoria, B. C.

Miss Wilks was authorized to prepare letters for the year.

Votes of thanks were passed to the ministers, the press, the trustees and choir of Bridge Street church and the young ladies who served the refreshments.

The first week in January was chosen for prayer and self denial, the funds thus raised to form a separate fund.

Malachi, 10 verse: Bring ye all the tithes into the storehouse, then there may be meat in mine house, and prove me hereafter, saith the Lord of hosts, if I will not open unto you the windows of heaven, and pour you out a blessing, that there shall not be room enough to receive it.

This was chosen the text of the Society for the year.

Mrs. Chandler, of New York, closed with prayer and the Society adjourned.

Chancery Court.

List of Causes Set Down for Trial.

The causes entered for trial at the Chancery sittings, Belleville, for 24th October before the Hon. Chancellor Boyd, are:

Harcourt vs. Purdy. Geo. D. Dickson, Q.C., for plaintiff; John Barnham, S. S. Wallbridge, for defendant.

Harcourt vs. Joyce. Geo. D. Dickson, Q.C., for plaintiff; A. A. McDonald, for defendant.

Jinks vs. Dalong. A. R. Donald, Q.C., for plaintiff; L. D. Bell and H. Ward, for defendant.

James vs. Robertson. Donald & Stewart, for plaintiff; Sherry, Bell & Biggar, for defendant.

White vs. Meade. F. A. Hutton; Clute & Williams, for plaintiff; Geo. D. Dickson, for defendant.

Tight vs. Shearer. Henderson & Henderson, Clute & Williams, for plaintiff; Irvine & Watson, L. L. McLean, for defendant.

Harcourt vs. Elliot. Geo. D. Dickson, Q.C., for plaintiff; S. S. Wallbridge, for defendant.

Foley vs. Porter. S. O'Brien; E. Gus Porter, for plaintiff; S. O'Brien; E. Gus Porter, for defendant.

Roberta vs. Port. S. B. Burdett, L. D. Bell, for plaintiff; S. B. Burdett, L. D. Bell, for defendant.

McDonnell vs. McDonnell. McDonnell & Wilson, for plaintiff; S. B. Burdett, L. D. Bell, for defendant.

McDonnell vs. McDonnell. McDonnell & Wilson, for plaintiff; S. B. Burdett, L. D. Bell, for defendant.

McDonnell vs. McDonnell. McDonnell & Wilson, for plaintiff; S. B. Burdett, L. D. Bell, for defendant.

## Crimes and Accidents.

LAWSON, N.B., Oct. 20.—On the B. &amp; M. railway, four miles from the city yesterday, two freight trains collided. Both engines and several loaded cars were burned. Brakenham Isaac Davenport was caught in the wreck, and in order to release him and prevent his cremation, a train man chopped off his imprisoned leg with an axe. He lived a few hours.

CHICAGO, Oct. 20.—The jury in the case of Mrs. Lagace, accused of poisoning her husband, came into the court at 12:30 p.m. day after being locked up for nineteen hours, and returned a verdict of "not guilty." The court room was crowded and great excitement prevailed.

The transatlantic steamer *Chuvash* has been wrecked off Point Phillip and many passengers drowned.

Jacob Sharp's lawyers will carry his case to the Supreme Court of the United States if the Court of Appeals decides against him.

General Ross, P. Butler has been definitely retained as counsel in the Chicago Anarchist case. For his services General Butler will receive a retainer of \$1500 and \$500 a day.

The sober judgment of nearly every person in Chicago whose opinion is worth anything is that the seven anarchists in the county jail will be hanged on Nov. 11th, according to their sentence.

London, Oct. 20.—The steamer *Upupa* collided with and sank the German barque *Plautus*. Eleven persons were drowned and the captain of the barque was also killed. Only two of the crew survived.

John Graham's death resulted from William McDougall pouring live coals over him and beating him while he was down on a voyage from New York. McDougall was gaoled at Galveston.

Parian socialists applauded their London brethren.

The railway N. J. murder mystery is about to be unravelled.

New York, Oct. 21.—The *Star* extra reports a frightful accident on the Chesapeake & Ohio R.R. 12 miles south of Charleston, W. Va. Twenty passengers were badly hurt; no one was killed. Some prominent New Yorkers were among them.

A pitch in near Charleston, South Carolina, resulted in the death of two persons and serious injury to several others.

THE VICTORY CROWN.

Should alarm the breast of the inventor of the great crown, it is the *Victory Crown*. It is not a crown, but it is the thing you want. See that you get Patman's *Victory Crown*, the crown, the sure and patient cure for corns.

Some prominent New Yorkers were among them.

It is expected that the Trent Valley Canal Commissioners will commence their duties in about a week. The necessary instructions have been given.

## Daily Intelligence.

Remarkable Incident.

"Give my defense a hand. With the shadow of Thy wing."

A party of northern tourists formed part of a large company gathered on the deck of an excursion steamer that was moving slowly down the historic Potomac, one beautiful evening in the summer of 1881. A gentleman who has since gained a national reputation as an evangelist of song had been delighting the party with happy rendering of many familiar hymns, the last being the sweet psalm to do to every Christian heart, "Jesus, lover of my soul."

The singer gave the last two verses with a fervor that thrilled every heart. A hush had fallen upon the listeners, and the singer, with a look of intense earnestness, was about to sing the concluding lines that thrilled every heart. A hush had fallen upon the listeners, and the singer, with a look of intense earnestness, was about to sing the concluding lines that thrilled every heart.

The singer gave the last two verses with a fervor that thrilled every heart. A hush had fallen upon the listeners, and the singer, with a look of intense earnestness, was about to sing the concluding lines that thrilled every heart.

## The Fruit Garden of the Sahara.

It is well known that the Sahara is not everywhere synonymous with desert, and that region, despite the dryness of its climate and the general aridity of its surface, possesses many well-cultivated and luxuriant oases, where the combination of the two elements of sun and water has produced marvels in the way of vegetation. The Lower Sahara is no innumerable basin of arid waters, and at times there is a superabundance; but the number of cultivated trees is increasing very rapidly, there being no fewer than forty-three oases in the Oued-Rir, which after a period of thirty years, has 13,000 inhabitants, 520 palm trees in full bearing—that is, which have been planted more than seven years old, and 100,000 fruit trees, while the value of the dates grown each year averages \$100,000. The oases of Yerville and Ain-Sana have 100,000 palm trees, and those of Figue 140,000. The Oasis of Mosh, with its 30,000 inhabitants, nearly all shepherds and merchants, cultivate 200,000. Zib, together with the Sahara slope of the Atlas, have 500,000 palm trees, with a population of 15,000, has 150,000 palm trees and 500,000 fruit trees. In all, the various oases have over 400,000 palm trees and 100,000 fruit trees, which results in a yield of the trade of the cultivation of tobacco, vegetables, corn, the vine, and other things grown beneath the shelter of the palm trees, and the value of the dates grown each year averages \$100,000. The oases of Yerville and Ain-Sana have 100,000 palm trees, and those of Figue 140,000. The Oasis of Mosh, with its 30,000 inhabitants, nearly all shepherds and merchants, cultivate 200,000. Zib, together with the Sahara slope of the Atlas, have 500,000 palm trees, with a population of 15,000, has 150,000 palm trees and 500,000 fruit trees. ## Butcher's BLOOD BITTERS

WILL CURE ALL DISEASES

BILOUSNESS, DYSPEPSIA, INDIGESTION, FLATULENCE, OF THE HEART, RHEUMATISM, SALIVARY GLANDS, OF THE SKIN, HEADACHE, OF THE SKIN, AND EVERY SPECIES OF DISEASE ARISING FROM IMPURE BLOOD.

W. WILSON & CO., Proprietors, Toronto.

Mr. Wiman's speech at Quebec was characteristic of the whole of the argument for the movement which he has inaugurated for the destruction of Canada's autonomy as a self-governing country.

He had, in truth, not a good word to say for the Dominion. He depicted Canada's alleged backwardness, the promise of Quebec's peculiar backwardness, and the city of Quebec's peculiar backwardness.

He gloried in the money and money-spending popularity of the United States as something unexampled in the world.

Then he showed the true inwardness of his heart in the implied reproach to the Dominion that it had not the Declaration of Independence not signed short at the line 45?

After he had thus unbalanced himself, he proceeded to particularize the advantages of the Dominion, and to show that the Dominion had benefited under the control of its fiscal laws.

This was the interesting part of his speech, or rather of his speeches, for a perusal of his prepared speech is calculated to convey the idea that Mr. Wiman's speech is in fact a series of himself mixed, and he gave the Quebecers some part of the picture that he usually holds to his audience across the border.

For instance, he told them that their home would become a manufacturing centre, and would supply the wants of the Dominion.

But just before he had informed them that commercial union would give them in the United States a market for the purchase of goods cheaper to the consumer in the country than he now possesses.

This was paradoxical to say the least. His remarks up on the lumber trade were an argument against his own position.

For he said that the two dollars duty the United States levies on Canadian lumber had produced such a condition of affairs in that country that in twenty-five years the entire stock of available lumber would disappear.

He went on to say that the United States would be obliged to conserve their own forest areas by depleting the more valuable Canadian timber districts, which constitute at once a main source of provincial revenue and an important industry in which large numbers of our people find employment.

There is no logic in this position in Canada. There would be much to be said for the United States, which by domestic legislation can do all Mr. Wiman wants Canada to pay to do.

Here he closed his argument on the wrong side of the line. Then in his special appeal to the residents of Quebec, he was disingenuous in his praise of Quebec.

He said that Quebec was the only city in the Dominion which could do under commercial union with the United States control the leather and the boot and shoe trade of the continent, shutting up of course the great factories of Massachusetts, why is it that with commercial and political union the provinces cannot control that of the Dominion?

There is nothing to prevent this, yet Montreal makes more money in a week than Quebec does in a month. So too, with the paper trade, pulp, also, Mr. Wiman says, will come when his materials. Why does Quebec not excel in this species of manufacture now? There are many mills in the Dominion elsewhere.

And with the ship building industry? How is it that Quebec with all her timber resources does not go ahead in this respect as it is? And why will American capital invest in ship building in Quebec when it has gone out of the business in the United States?

Mr. Wiman's friends on the Canadian press complain that he is ridiculed by those who oppose him. Is the responsible author of such an argument as he has delivered in Quebec yesterday to be treated seriously in such a field? Mr. Wiman may be a successful politician, but he is not an orator, not a logician, not even a sensible talker, and not a success. He may mean well, but his speeches, if they indicate nothing else, indicate that he believes in a mistake that Canada has not long since cast in her lot with her neighbors to the south. In this he utterly fails to appreciate the aspirations of the Canadian people, among whom he has not lived for twenty years. This is seen in his address, which, moreover, make it evident that he has given no study to the subject as we can enable him to speak upon it with convincing authority.

He shows this in small things as well as in his large ones. He has not the least idea of the value of the lumber trade to the Dominion, and he has not the least idea of the value of the leather and the boot and shoe trade to the Dominion.

He has not the least idea of the value of the paper trade to the Dominion, and he has not the least idea of the value of the pulp trade to the Dominion.

He has not the least idea of the value of the ship building industry to the Dominion, and he has not the least idea of the value of the ship building industry to the Dominion.

He has not the least idea of the value of the leather and the boot and shoe trade to the Dominion, and he has not the least idea of the value of the leather and the boot and shoe trade to the Dominion.

He has not the least idea of the value of the paper trade to the Dominion, and he has not the least idea of the value of the paper trade to the Dominion.

He has not the least idea of the value of the pulp trade to the Dominion, and he has not the least idea of the value of the pulp trade to the Dominion.

He has not the least idea of the value of the ship building industry to the Dominion, and he has not the least idea of the value of
